“Good evening Ms. Rodriguez, My name is Michelle Godinez and I am a resident of Lakeview Terrace. As I drive around in my daily life through various cities I noticed for example in the City of Burbank, Glendale, West LA, etc... there are many beautiful well kept green spaces. Parks have manicured lawns, there is no garbage strewn, and bathrooms are clean. It makes me sad to see our neighborhood green space quite the opposite. I frequently walk to the Hansen Dam and find it is filled with litter, graffiti, and looks like a dumping ground for homeless. There is one area that looks particularly neglected and that is right on the south west corner of Osborne and Dronfield. I would like as many others to see improvements. Improvements such as trash removal to start and creating useful green space. One suggestion that would be innovative for the area would be a meditation labyrinth. It would be great to have a place for the community to go to and enjoy a peaceful place. This ancient aid would help people soothe the nerves, calm the soul, mend the heart, and heal the body. A space like this would be a beacon for positive outcomes for our neighborhood. Thank you very much for your time and consideration. Respectfully, [REDACTED]
